The Respondent to whom the Agreement is awarded shall be referred to as the "Contractor."

The University of Maine System and other components of the University shall be referred to as "Multi-Institution".

1.1.2 Background

Overview

Established in 1968, the University of Maine System (UMS) unites seven distinctive public universities, comprising 10 campuses and numerous centers, in the common purposes of providing quality higher education while delivering on its traditional tripartite mission of teaching, research, and public service.

Maine's largest educational enterprise, the University extends its mission as a major resource for the state, linking economic growth, the education of its people, and the application of research and scholarship.

A comprehensive public institution of higher education, UMS serves nearly 40,000 students annually and is supported by the efforts of more than 2,000 full-time and part-time faculty, more than 3,000 regular full-time and part-time staff, and a complement of part-time temporary (adjunct) faculty.

Reaching more than 500,000 people annually through educational and cultural offerings, the University of Maine System also benefits from more than two-thirds of its alumni population residing within the state; more than 123,000 individuals.

The System consists of the following seven universities: University of Maine (UM); University of Maine at Machias (UMM); University of Maine at Augusta (UMA); University of Maine at Presque Isle (UMPI); University of Maine at Farmington (UMF); University of Southern Maine (USM); and, University of Maine at Fort Kent (UMFK).

Operating within a shared services model, the offices of Information Technology, Strategic Procurement, Human Resources, Facilities, Risk and General Services, Finance and Budget, Shared Processing Center, General Counsel and Organizational Effectiveness partner to form the University Services organization.

Charged with delivering key administrative functions across the System, University Services is dedicated to leveraging its significant unit and collective resources to not only serve the immediate needs of its constituents, but deliver sustainable economies and efficiencies for the future benefit of the System as well.

University of Maine at Augusta

Founded in 1965, the University of Maine at Augusta transforms the lives of students of every age and background across the State of Maine and beyond through access to high-quality distance and on-site education, excellence in student support, civic engagement, and professional and liberal arts programs. Celebrating its 50th anniversary in 2015, UMA is the third largest public university in Maine. In addition to its main campus in the state's capital, UMA also serves students at its campus in Bangor (UMA Bangor) and through UMA centers around the state. With its multiple locations and long-term expertise in online and distance learning, UMA is generally considered the university of choice for Mainers of all ages who want to attend college without uprooting their lives.

1.1.3 Purpose

The University of Maine at Augusta is seeking responses to satisfy two immediate objectives for the 2019 Academic Year:

- a. Lease, Lease to own, or purchase Aircraft for UMA to service UMA's Private Flight course
- b. Contract flight instruction services and aircraft for the Instrument and Commercial Aviation ratings as defined by the Federal Aviation Administration and this document.

Responses could be provided for either a. or b. or both as specified above.

In addition, the University is seeking responses that also demonstrate competency and experience in providing scheduling and SMS software for the FAA part 141 flight training program for all levels of FAA pilot certification. The University is exploring long term opportunities for its BS in Aviation program and will evaluate respondent's ability to meet future programmatic goals as a value add in this RFP.

This document provides instructions for submitting responses, the procedure and criteria by which the Respondent(s) will be selected, and the contractual terms which will govern the relationship between the University and the awarded Respondent(s).

The University of Maine at Augusta begin offering a BS in Aviation in 2014 as a public private partnership with an Augusta based flight training center – using the flight training center's FAA Part 141 certificates. Today at the point of contract renewal, the University has requested that an open RFP process be engaged to determine what is the best price and best level of service for the University.

Due to changes in the Veterans' Administration funding rules for veterans seeking an aviation degree, it is required that the academic institution providing the program hold the FAA Part 141 certificate for the Private Pilot Certificate. Thus to meet our mission goal of being "Veteran Friendly" UMA seeks to hold its own certificates for both Private Pilot Ground and Private Pilot Flight, manage its own planes and instructors.

The University intends to own/hold its own part 141 certificate to teach ground Private, Instrument, and Commercial and flight training for Private pilots. Initially, the University seeks to contract with a qualified outside aviation entity to provide contract flight training for Instrument and Commercial pilots using the contractors FAA Part 141 certificates. Respondents should also provide a fee structure for providing Instrument and Commercial ground courses. These contracting entities may or may not provide aircraft for all three levels of flight training and a proposal for such equipment may be included with or separate from the proposal to contract instruction.

Respondents should review **1.1.4 Specifications / Scope of Work** of this document to see the full Scope of Services/Products required.

1.1.4 Specifications / Scope of Work

The University requests that respondents address their ability to successfully and expediently deliver the following items and services under the direction of UMA's Aviation Coordinator:

Flight Instruction:

1. The University is investigating co-locating its Aviation Program with its Unmanned Aerial Systems (UAS) Program to Brunswick Landing at the site of the former Brunswick Naval Air Station. (now BXM)
2. The University seeks Contract flight instruction for FAA Instrument and Commercial rating for an estimated group of 10 students per year and summer as needed up to an estimated total of 40 students by 2024. Please provide an option for teaching Instrument and Commercial ground training.
3. At some point in the future, based on UMA's capacity, and program enrollment, UMA may choose to begin teaching Flight training for Instrument and Commercial students.
4. Flight instruction will include flying in instrument meteorological conditions (IMC) for instrument students, and flying into Class "B" and complex airspace for commercial students.
5. Contractors will be expected to provide qualified and experienced CFIs with at least 3 years teaching experience to work with UMA students. As an option, UMA may allow former students to teach with less than 3 years of experience.
6. To achieve our goal of regular and timely lessons, we anticipate instructors teaching two to three slots per day for 4 days per week. The UMA Aviation work week is expected to be Monday through Saturday.
7. UMA's RedBird FMX simulator will be integrated into all aspects of ground and flight training up to the maximum allowable under FAA standards.
8. Insurance expectation of contractor are outlined below in Rider B1
9. All CFIs teaching at UMA will be qualified to fly and instruct in technically advanced aircraft.
10. UMA's goal for number of flight time to complete Instrument Rating completion is as prescribed by FAA 14 CFR Part 141 and appropriate appendices for the instrument rating. This will include the use of UMA's

- Redbird Simulator integrated into the curriculum to proportions as prescribed by the FAA's most recent letter of authorization.
11. UMA's goal for number of hours of flight time to complete Commercial Rating is as prescribed by FAA 14 CFR Part 141 and appropriate appendices for commercial pilot certification course.
 12. UMA's goal is a minimum of 90% licensure pass rate for first attempt and 100% for second attempt for Instrument Rating
 13. Our goal for Commercial licensure pass rate is 90% for first attempt and 100% for second
 14. These contracting entities may or may not provide aircraft for all three levels of flight training and a proposal for such equipment may be included with or separate from the proposal to contract instruction.

Aircraft Specifications:

1. UMA prefers use of technically advanced aircraft (Piper Archer, Cessna 172, Cirrus SR20, or equivalent) that are manufactured after January 1, 2011 for Private, Instrument and Commercial flight training-to include provisions for flying in IMC.
2. Provided aircraft will be capable of Electronic Flight Instrument System (EFIS) data export to software applications (like CloudAhoy or similar application). This will allow for EFIS flight data to be compiled with other information from additional aviation resources. This will allow students and flight instructors to analyze training flights and present the analysis of the flight via an interactive display for a post flight debriefing.
3. Instructors will be familiar with the use of electronic logbooks which each flight student will be required to use.
4. Bids for aircraft may be lease, lease to purchase and purchase. Aircraft will be TAA that are less than seven years old.
5. Considerations for aircraft will be based on the following capabilities:
 - a. Overall safety performance over the last 5 years
 - b. Ease of maintenance and immediate availability of parts

Scholarships, donations, or gifts to the University, will not be considered in the evaluation of responses. The University reserves the right to reject any or all responses, in whole or in part, and is not necessarily bound to

accept the lowest cost response if that response is contrary to the best interests of the University. The University may cancel this request or reject any or all responses in whole or in part. Should the University determine in its sole discretion that only one Respondent is fully qualified, or that one Respondent is clearly more qualified than any other under consideration, an Agreement may be awarded to that Respondent without further action.

2.4 Negotiations

The University reserves the right to negotiate with the successful Respondent to finalize a contract. Such negotiations may not significantly vary the content, nature or requirements of the proposal or the University's Request for Proposals to an extent that may affect the price of goods or services requested. The protest must contain a statement of the basis for the challenge. The protest must contain a statement of the basis for the challenge. Further information regarding the appeal process can be found at

http://staticweb.maine.edu/wp-content/uploads/2015/07/APL_VII-A_20150630-FINAL.pdf?565a1d
